ABOUT OUR DOORS

Our door is designed to be outside, there is no other door like ours. We use an aluminum back to mount wood using mechanical fasteners - no glue is used so the door will never fall apart. This design also allows for the natural movement of the wood throughout the seasons. We have crafted a door that will never fail.

Why Use Lifestyle Outdoor Cabinets

Lifestyle Outdoor Cabinets is a custom cabinet builder; we build all our products at our facility in Punta Gorda, Florida. We have been in the cabinet manufacturing business for well over 20 years and can help with any design or functionality questions you may have. Our first outdoor cabinet design and installation was in early 2000 and after many changes, we have perfected the outdoor cabinet. We have been manufacturing and installing these cabinets since 2008. What separates us from all other cabinet manufacturers is the aluminum construction of the cabinet and especially the aluminum-backed door system. We custom build all of our cabinets per job specs, this allows for any size to fit your space. There are no other cabinets like Lifestyle Outdoor Cabinets and we look forward to working with you.

- ◆ ALL ALUMINUM CONSTRUCTION
- ◆ WEATHERPROOF
- ◆ LIFETIME LIMITED WARRANTY
- ◆ UNLIMITED COLOR OPTIONS
- ◆ POWDER COATED FINISH
- ◆ BUILT-IN INSULATING LINERS

ALUMINUM DOORS

Lifestyle Outdoor Cabinets offers a line of all aluminum doors and cabinets, powder coated in solid or wood grain finishes to meet your design needs. These cabinets bring function and style with an almost unlimited color pallet. All cabinets are made of welded aluminum with a powder coated finish and polymer backs and floors. There are thousands of colors available and any two or more colors can be used to create a wood grain finish.
